

# Do you want financial freedom?

## Services we offer:

### Removal of paid and unpaid defaults

Removal of defaults from a credit file/report may be possible where the creditor has failed to comply with the legislative requirements and mistakenly reported a default against an individual.

### Removal of excessive enquiries

Credit enquiries can be listed on a credit report where a consumer makes an enquiry to obtain finance with a credit provider.

Enquiries indicate to other creditors what loans/credit you may have applied for, which in turn can negatively impact upon your score or rating. If you have too many enquiries within a short space of time, this can negatively affect your score and ability to obtain finance.

We can assist you in having some enquiries removed from your credit report, therefore improving your score and likelihood of obtaining finance.

### Debt negotiation services

Are you experiencing financial difficulties and cannot afford to maintain your financial obligations due to unforeseen circumstances?

We understand this may be a sensitive and difficult time in your life, and we aim to make the process as easy and comfortable as possible as we assist you with your debt negotiation matters and hardship applications.

### Removal of court judgements, nationwide

Court judgements and court writs are entered into against individuals and companies when a civil claim has been brought against the individual or company in court, and no defence is lodged at the time.

As Australian Solicitors, we can represent you in these matters from beginning to end, nationwide.

### Removal of Commerical defaults

If you have signed personal guarantees or are a director of a company or a commercial entity you may also be subject to negative credit listings on your personal or company credit report.

This can affect your ability to obtain finance both personally and via your commercial entity.

Being a complex area of law this requires the attention of qualified lawyers to achieve success.

**Our team of expert solicitors can act on your behalf, aspiring to improve your credit rating and maximise your likelihood to obtain loan approval with a lender.**
